INTERNATIONAL SEARCH REPORT

International application No. PCT/US 00/04699

Box I Observations where certain claims were found unsearchabl (Continuati n of item 1 f first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. X Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
Although claims 20 and 21 are directed to a method of treatment of the human/animal body, the search has been carried out and based on the alleged effects of the compound/composition.
Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
1-11, 20,21 (all partially)
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest The additional search fe is were accompanied by the applicant's protest. X No protest accompanied the payment of additional search fees.

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-11,20,21 partially

Antiviral composition comprising interferon in combination with 5-membered cyclic nucleosides for the treatment of flavivirus and rhabdovirus infection.

2. Claims: 1-11,20,21 partially

Antiviral composition comprising interferon in combination with mycophenolic acid for the treatment of flavivirus and rhabdovirus infection.

3. Claims: 1-11,20,21 partially

Antiviral composition comprising interferon in combination with imidazole derivatives for the treatment of flavivirus and rhabdovirus infection.

4. Claims: 1-11,20,21 partially

Antiviral composition comprising interferon in combination with adamantanes for the treatment of flavivirus and rhabdovirus infection.

5. Claims: 1-11,20,21 partially

Antiviral composition comprising interferon in combination with quinazoline derivatives of 2,4-diaminopyrimidine for the treatment of flavivirus and rhabdovirus infection.

6. Claims: 12-19

Interferon alpha8 for the treatment of flavivirus and rhabdovirus infection.
